

**REMARKS/ARGUMENTS****Amendments to the Claims:**

Claims 1-4, 6-16, 23-27, and 34-46 are pending in the application. Claims 35-40 have been amended. Claims 14-16 and 23-27 have been cancelled.

Claim 35 has been amended to refer to the reflector elements as “at least a first and second” reflector element, and deleted the reference to “plurality” of reflector elements.

Claims 36-40 have been amended to correct dependency to independent Claim 35 and to correct the antecedent bases to the reflector elements. Applicants had previously submitted the claims with dependency to dependent claim 34 as a typographical error.

**Claim Rejections – 35 USC 112**

The Examiner has rejected Claims 35-40 under 35 USC 112, second paragraph, as being indefinite in use of both of the terms “plurality of” and “at least a first and second” reflector elements in the same claim. Applicants have amended the claims to refer exclusively to “at least the first and second” reflector elements”, in order to progress the application to allowance.

The Applicants believe, however, that “at least a first and a second” covers the same scope as “a plurality of” reflector elements, since at least a first and a second allows for a third, fourth, etc. The “at least a first and a second” language is preferred because it allows the Applicants to define the relationship between any two of the reflectors as “first” and “second” reflector elements.

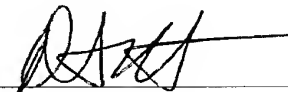

**Allowable Subject Matter**

With all due respect and appreciation for the allowance of the Claims, the Applicant apologizes to the Examiner for being unable to clearly understand the reasons provided in the Action that indicate the allowable subject matter, and requests that the Examiner re-state those reasons to assist the Applicants’ understanding thereof.

Applicants believe that a complete response to the office action has been provided, and requests allowance of all pending claims. Applicants are submitting this response within two months of the mailing date of the final action, and await the Examiner’s advisory action.

Respectfully submitted,
